

Your Responsibilities

As ***Intellectual Property Counsel*** you will provide research, analysis, recommendations, and advice regarding complex intellectual property legal questions and issues. In addition, you will:

- Draft, negotiate, counsel on, and file legal documents, including patent applications, responses to USPTO office actions, opinions, contracts, memos, and registrations
- Assist senior attorneys in analyzing issues to identify legal problems, research applicable laws and practices, and formulate solutions and counsel
- Review legal documents for compliance with applicable laws
- Stay current on emerging trends in the law through continuing legal education, reading, professional conferences, and participating in professional associations

What Skills You Need

- Ability to apply intellectual property law to an area of responsibility, and identify and counsel on intellectual property issues
- Ability to research, analyze, and counsel on identified legal issues
- Ability to manage and advise on risk within areas of specialization and responsibility
- Effective interpersonal communication, negotiation, and conflict resolution skills
- Effective writing skills, including grammar, persuasion, and style
- 1 – 3 years of legal experience in a corporate, law firm, or government environment

What Makes You Stand Out

Other areas of experience or interest that will help us place you on the right team include:

- Experience with the legal management of the development, maintenance, and leveraging of an intellectual property portfolio
- Experience with providing research and legal counsel on complex intellectual property legal questions and issues
- Experience managing projects relating to intellectual property, competitive intelligence, client education, and contracts
- Experience with patent preparation and prosecution in the electrical arts in the US and outside the US

Education

Ideally, you will have the following:

- Juris Doctor (JD) degree or equivalent degree
- USPTO registration as a patent attorney
- Bachelor of Science or equivalent degree, with a degree in electrical engineering, computer engineering, or computer science, or experience drafting patent applications in these areas

US visa sponsorship is not available for this role
